

Enclosed is the 2009-2010 Winterization and Storage Contract. Please take a moment to fill out the form and promptly return, so we may reserve a haul date that works best with your schedule.

For your billing convenience payment for storage will be due at time of delivery or pick up, all other services will be due upon completion of work.

Please keep in mind that any warranty work for Yamaha, Volvo and Honda must be performed by an authorized service center such as Gifford Marine.

This year we are offering a \$100 - \$200 credit towards your winter storage for any referrals that result in new storage customers for boats 20' and larger. Call for details.

While many boating customers are not purchasing new boats, you may want to consider protecting the investment you have. For example Gifford Marine offers fiberglass repair, full detailing, engine upgrades, electronics, trailer safety checks, canvas, and much more. We look forward to serving you!!
